## **Messages to friends you can use or adapt**

## **Clarity for referral program.**

It has to be someone I am not already connected to or if it is someone I met already, it has to be clear that your prompting or encouragement made the referral happen. I'm very fair about this. If I'm already talking to them, I'll let you know when you start to connect us.

If they are experiencing me at event that I am hosting or something I am speaking at that you invited me to an I am volunteering at or doing solely as support to you or promotional work, then the referral fee doesn't apply unless it's very clear you are making sign up happen, as this would be the main value I am being asked to bring for the possibility of connections and potential clients.

I track and send referrals after they've started the program and have paid, as sometimes they drop out and request refunds, so I don't want to have to ask for fees back. I reconcile once a month. If you want to put a lot of effort into this, it can be good extra easy money or many times it is just a simple message when it's clear it would be a win/win for everyone. Especially if you are in Whatsapp groups of women circles or larger groups.

The messaging should also be helpful and casual and not feel like a sales pitch, but more from a true believing that I can help them.

It's important that they actually need the help and aren't being sold into anything, as I'm only interested in working with people that are ready to make things happen.
